

Continuing Medical Education Accreditation

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through joint sponsorship of Albert Einstein College of Medicine and the American Thyroid Association. Albert Einstein College of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

Albert Einstein College of Medicine designates the 73rd Annual Meeting of the American Thyroid Association for a maximum of 30 hours in category 1 credit towards the AMA Physician's Recognition Award. Each physician should claim only those hours of credit that he/she actually spent in the educational activity.

The Faculty Disclosure Policy of Albert Einstein College of Medicine requires that faculty participating in a CME activity disclose to the audience any relationship with a pharmaceutical or equipment company that might pose a potential, apparent, or real conflict of interest with regard to their contribution to the activity. Any discussions of unlabeled or investigational use of any commercial product or device not yet approved in the United States must be disclosed.

Target audience: This meeting is designed for the worldwide community of endocrinologists, other physicians and health care professionals, and scientists who wish to broaden and update their knowledge of the thyroid gland and its disorders.

Goal: For the widest possible international community of clinicians and investigators to share the newest research findings and techniques in thyroid physiology and pathophysiology and in the prevention, diagnosis, and management of thyroid diseases.

Objectives: After attending this meeting, you should be able to:

- Describe state-of-the-art findings on the mechanisms, prevention, diagnosis, and management of thyroid disorders
- Recognize the impact of health policy, environmental factors, and non-thyroidal conditions on thyroid disorders
- Evaluate new treatment options for patients with thyroid disorders
- Increase your opportunities for networking and collaboration with other professionals in furthering thyroid research and patient care
