

Disclosure of Relevant Financial Relationships
88th Annual Meeting of the American Thyroid Association, Washington, DC
October 3-7, 2018

As a sponsor accredited by the Accreditation Council for Continuing Medical Education, the University of Colorado School of Medicine must ensure balance, independence, objectivity, and scientific rigor in all its sponsored educational activities. All speakers/contributors participating in a sponsored activity are expected to disclose to the accredited provider any relevant financial interest or other relationship(s) involving themselves or their spouse/partner within the last 12 months with any proprietary entity producing health care goods or services related to the content of the activity. The intent of this disclosure is not to prevent a speaker with a relevant financial or other relationship from making the presentation, but rather to identify and resolve any conflicts of interest that may control the content of the activity. It is also intended that any potential conflict be identified openly so that the listeners have a full disclosure of the facts and may form their own judgments about the presentation. It remains for the audience to determine whether the speaker's interests or relationships may influence the presentation with regard to exposition or conclusion. All other faculty/contributors have reported no commercial affiliation associated with this conference or intent to discuss off-label/investigative uses of commercial products and/or devices in their presentations.
